History

Nick's Taste of Texas has been in business for over 25 years. The Martinez family continues to provide a great place where people can experience the Tejano culture, great Tex-Mex food and an at home feeling.

The original goal was to create the type of restaurant that one would find in Texas – casual, lively with a family atmosphere. Their legacy of delivering the best Tex-Mex cooking and warm hospitality remains at the core of the business.

The family is very proud of the growth and success of Nick's Taste of Texas and the number of lives that they have touched, from their customers to their employees. They are appreciative and extremely grateful for the loyalty and support of their customers over the years – they look forward to serving their customers for many years to come."
